Instructions

Use the graph paper below to draw your walls. Write down the dimension of each wall in inches.

Mark on walls the placement of windows and note their dimensions including overall width and height as well as distance from a corner or end of wall.

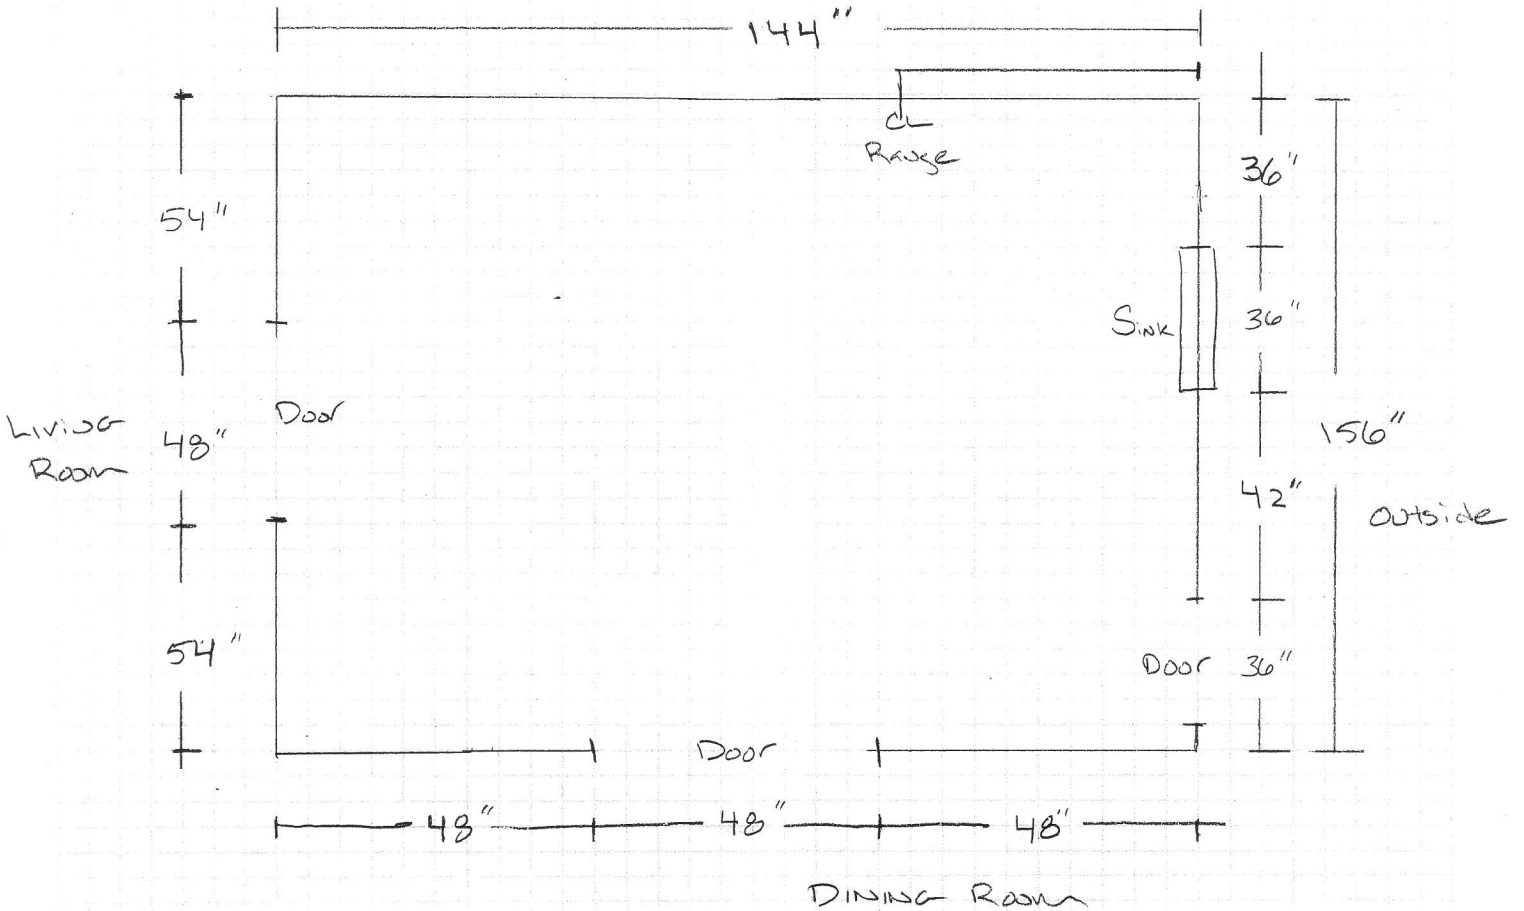

Mark on walls the placement of doors and note their dimensions including overall width and height as well as distance from a corner or end of wall.

Draw where you would like the appliances to go and note their size. We assume standard sizes if not listed (36" refrigerator, 24" dishwasher, 30" stove).

Measure and note the ceiling height or if a cathedral ceiling, measure from the floor to where the ceiling begins.

Finally, if there are any special requests, please let us know in the space below. Example: roll out trays, glass doors, decorative end panels, etc.

Notes Need lots of drawer space for pots and pans, silverware, etc.  
Cabinets with Roll-outs. would like to have cookbook storage and space for my spices.
